PROFESSIONAL SUMMARY

Crypto-native researcher and writer with four years in crypto media and web3 startups. My MA thesis (graded 1.0) was built on 18 months of research inside Pump.fun, X and Telegram, studying how memecoin narratives form, spread and capture attention and capital. I've written a weekly crypto market newsletter, worked with marketers from well-known crypto projects and KOLs, and helped grow a crypto community from zero to 12,000+. I trade, follow X and Telegram daily, and turn fast-moving information into clear, simple insights.

PROFESSIONAL EXPERIENCE

Researchpreneurs **Berlin, Germany**
- *Content Specialist (Freelance)* March 2026 - June 2026
  - Turned expert and research input into clear, credible content for an AI R&D platform, working directly with the CEO.

AFEL (Digital collectibles project) **Berlin, Germany**
- *Content Manager* June 2024 - March 2025
  - Grew a crypto community from zero to 12,000+ in six months across X, Discord and LinkedIn, tracking what drove attention and engagement.
  - Worked with marketers from well-known crypto projects on joint campaigns, managed several KOLs, and owned messaging for a launch that sold out with $300K in primary sales.

Merkezsiz (Media Outlet) **Istanbul, Turkey**
- *Editor & Content Specialist* August 2023 – April 2024
  - Wrote the weekly crypto market newsletter (1,000+ subscribers), turning market news and narratives into clear takeaways.
  - Directed and edited 10+ contributors covering crypto and web3, and ran international tech summits with 500+ participants, including at Devconnect 2024.

Hardal **Istanbul, Turkey**
- *Product Marketing Associate* Nov 2022 - Oct 2023
  - Used performance data and analysis to improve messaging, growing organic traffic ~50%.
